Part 2 – Europacom.net Ltd Code of Practice for Premium Rate Services and NTS Calls

Purpose of this Code of Practice

This code informs you about our policies on providing information about Premium Rate Service (PRS) calls and on our charging policy for calls to NTS and PRS numbers.

Premium rate services

Premium rate services (PRS) are telephone numbers that offer some form of information or entertainment that is charged to your phone bill. UK-based PRS numbers are normally prefixed by “09”. Typical services include TV votelines, mobile ringtone downloads, technical helplines, charity fund-raising and adult entertainment.

Charges for these services are added to your telephone bill. Calling a PRS number generally costs between 10 pence and £1.50 per minute, per call or per text (incl. vat). Calling these services from, for example, mobile phones, cable networks or public payphones will generally cost more than the advertised rate. Our charges for calling these services are shown in our price list, which is available on request from our Customer Services Team 023 8064 6300 and via our website www.europacom.net

If you have a problem with PRS, we can help. We can provide advice on checking the telephone number of any PRS charges that appear on your bill and will try to help you identify the premium rate service provider. We can use call barring to restrict access to “09” numbers. Please call our Customer Service Team on 023 8064 6300 for advice on this. We can give you a fact sheet on PRS.

You can also ask for help from the Independent Committee for the Supervision of Telephone Information Services (ICSTIS), which is the industry-funded regulatory body for Premium Rate Services. ICSTIS operates a code of practice that sets out standards for the operation of PRS. You can use the ICSTIS website at www.icstis.org.uk to check PRS numbers direct or to download a complaint form. ICSTIS has legal powers to require a provider of PRS to amend its service or promotional material (or both) and can also impose penalties on content service providers. For other ways to contact ICSTIS, see the “Useful addresses” section below.

Number translation services

Number translation services (NTS) are based on numbers that are normally pre-fixed “08”. For example, 0800 and 0808 are used to provide freephone services (some freephone services are also provided on 0500 numbers). 0844 and 0845 numbers are used for dial-up pay-as-you-go Internet access and customer service helplines. 0870 and 0871 numbers are used for information services, technical helplines and telephone banking. They are also used by organisations to help them provide call-management features such as intelligent call routing and fax-to-email services.

Charges for calling services on NTS numbers are added to your telephone bill and prices range from free up to 10p per minute or per call (incl. vat). Calling these services from, for example, mobile phones, cable networks or public payphones will generally cost more than the advertised rate. Our charges for calling these services are shown in our price list, which is available on request from our Customer Services Team 023 8064 6300 and via our website www.europacom.net We can also give you a fact sheet on NTS.

If you are unhappy with the help you have received from us on a problem with PRS or NTS, please contact Steve Bradshaw 020 7965 1693 s.bradshaw@europacom.net , who has responsibility for compliance with our code of practice for PRS and NTS. You may also complain using the complaints procedure set out in this code including, ultimately, referring your complaint to Otelo PO Box 730 Warrington, Cheshire, WA4 6WU 01925 430870 email enquiries@otelo.org.uk website www.otelo.org.uk

Internet diallers

If you use the Internet, it is possible for software to be placed on your computer without you knowing - using the same methods as for computer viruses. This type of software (known as Internet or rogue diallers) can then make calls to PRS and NTS numbers without your knowledge. Software is available to detect this activity and we can help you to access this - please contact our Customer Services Team for details. 023 8064 6300 ICSTIS has been given responsibility for policing this type of activity and you can contact them via www.icstis.org.uk to ask for help or to report examples of this type of abuse. For other ways to contact ICSTIS, see the "Useful addresses" section below. We can also help by barring calls to 09 numbers.

The Telephone Preference Service

If you don't want to get sales and marketing calls you have not requested, you can add your details to a list run by the Telephone Preference Service (TPS). If your number is on the list, it is illegal for a company to call you for marketing purposes. You can contact the Telephone Preference Service via www.tpsoline.org.uk or by telephoning 0845 0700707.
